## Editor's Message

Graduation brings with it the usual amount of sentiment, memory, anticipation, and apprehension. Each of us has his own feelings, depending on what he has accomplished in his school career and expects to accomplish in his life's work. Regardless of our background and future, we graduates have the honorable distinction of being members of the Class of January, 1965—the fiftieth class to graduate from Bartram since its beginning back in 1939.

It has taken twenty-five years for Bartram to attain the scholastic reputation it enjoys today, and we are the beneficiaries of all the accomplishments that have been made and the opportunities that have been afforded.

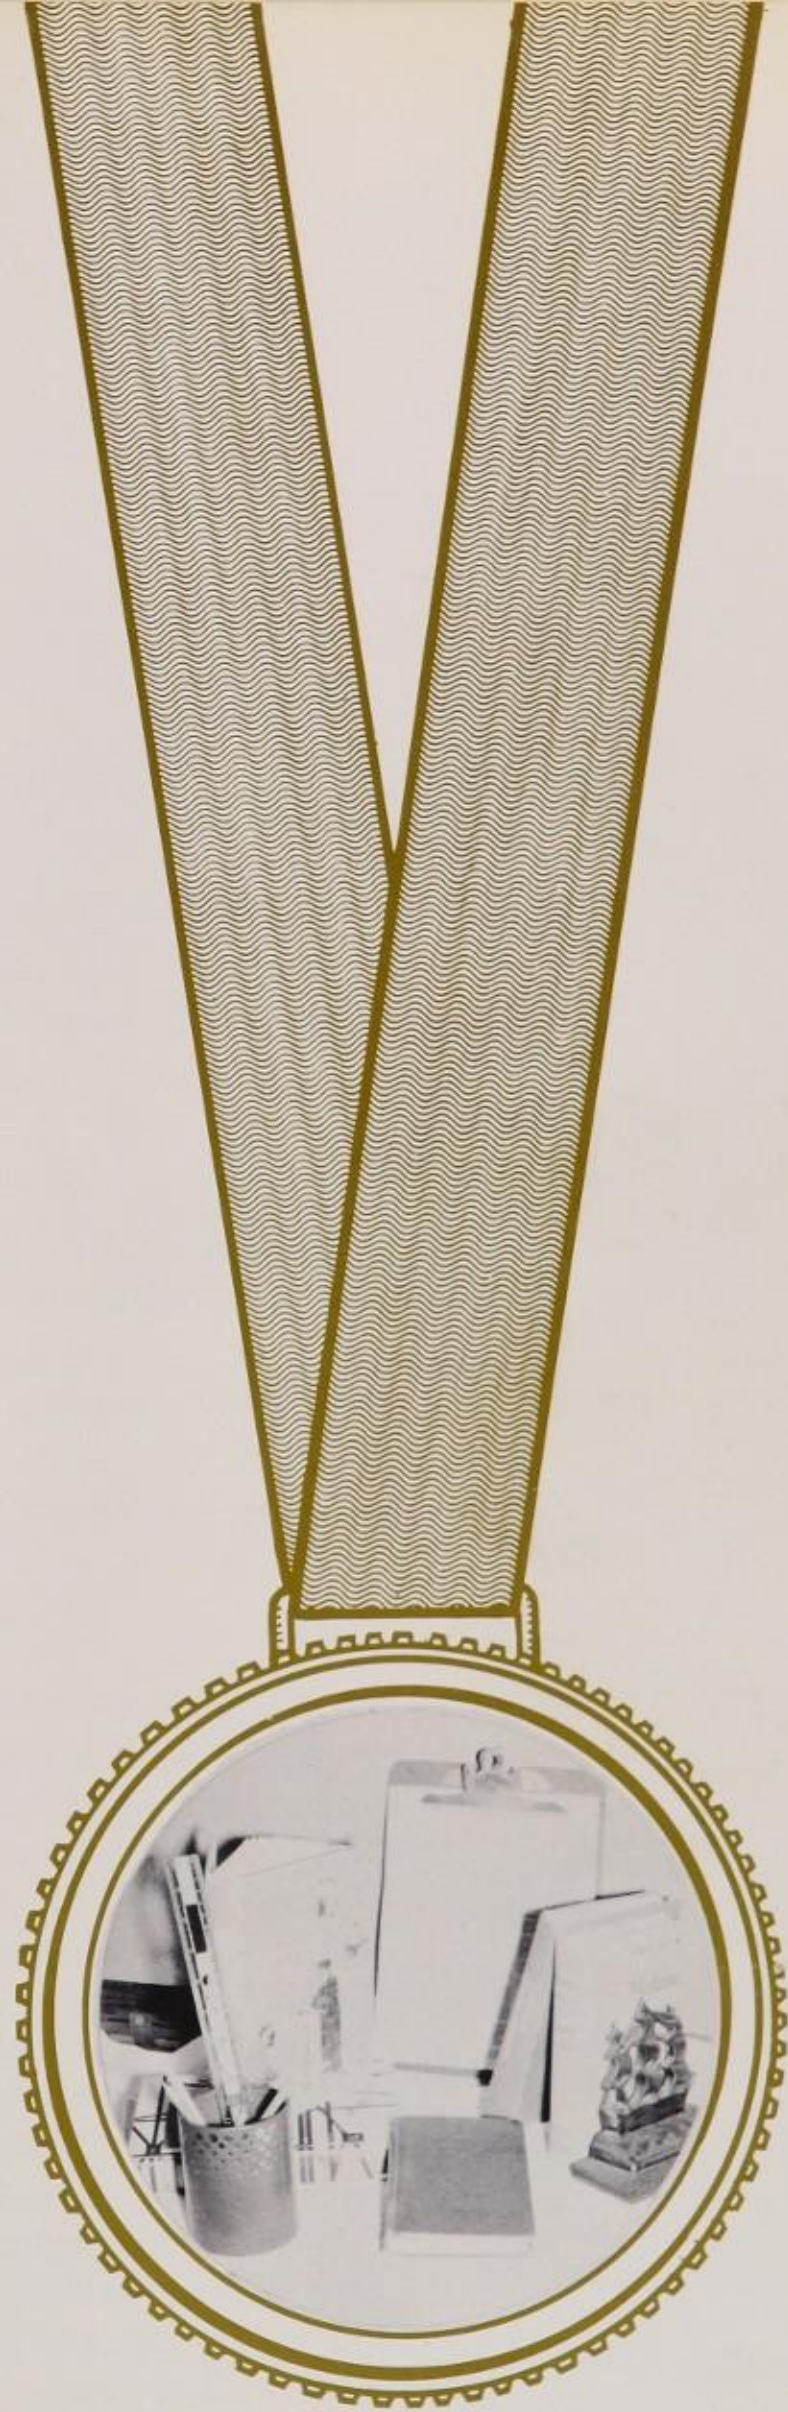

It has been necessary to expand the curriculum to meet the changing and increasingly complex world, to broaden interests and activities to account for the "whole" student, and to select capable and inspirational faculty members and administrators. In a short quarter of a century, by initiating and abandoning many programs and by culling its faculty so that only the finest remain, Bartram has won its share of academic excellence and has made a place for itself in the community where its high standards are appreciated.

However, the seniors associate the Class of January, 1965, not with a silver anniversary, but with a golden one. Being the fiftieth class to leave Bartram, we have become the Class of Gold. As such, we have gratefully fulfilled our obligations to Bartram by adding to and improving on its reputation and by offering ourselves and our abilities to society. Let it be said, then, on our own merits, that we are the Gold Medal Class of January, 1965. Chosen as this yearbook's theme, the title "Gold Medal Class" immediately places demands on us as individuals. Let us live up to them.

# Classes

A fine leader and an active participant in all activities, our principal, Mr. James Hincken, guides our school with an inquiring and open mind.

## **Bartram's Administrators**

### **TO THE CLASS OF GOLD:**

You, the members of Bartram's fiftieth graduating class, have selected an appropriate name. Gold has always been associated with excellence and achievement of high degree. Golden Age, Golden Anniversary, Gold Medal, Golden Days—these are familiar words to all.

To you, the graduates, the most significant phrase should be Golden Opportunity. Never in the history of our country have opportunities been so golden for young people in all areas—the professions, business, and industries.

During your years at Bartram you have achieved a degree of excellence and have been awarded a gold medal in the form of a diploma. This is only the beginning. Now you must take the initiative, seize the opportunity, determine to pursue excellence in whatever your life work will be. Do this and your rewards will be rich. Bartram's best wishes go with all of you.

**JAMES HINCKEN**  
*Principal*

Working with Bartram students, Dr. Maurice Wasserman is well-liked by all.

It is the good fortune of each one of you to be members of Bartram's Class of Gold—the 50th Class to earn her coveted diploma. Your Commencement marks a fitting climax to your Alma Mater's year-long Silver Jubilee Anniversary Celebration.

Gold and Silver! These precious metals have intrigued Man for centuries, often inspiring him to his greatest feats of intelligence and courage. Unhappily, they have also motivated many of his foulest crimes.

To your parents and teachers you are indeed a golden youth, the embodiment of their hopes for a better Tomorrow. If our world is one day to shine with a brighter lustre, it will be because of the golden aspirations and the sterling devotion which you will dedicate to the sacred task of making the Future beautiful and good. Always remember that the Gold and Silver must not remain yours alone, to satisfy your sole pleasure—they must be shared with your fellows through the workings of your high intelligence and good character.

You have accepted the community's gift of twelve years of free schooling. Though the cost of this gift can be measured in terms of gold and silver, its value can never be so measured. To each of you it is a precious treasure which will bring much personal satisfaction in the years to come. To those whose generosity gave it to you, it is an expression of their hope for mankind's unbroken progress toward Peace on Earth. By accepting their gift, you have incurred an obligation to carry forward this progress and, in turn, to bestow an even better schooling to those who will follow you. Only thus will Man's historic progress from Darkness to Light be advanced.

May each of you enjoy the Divine blessing and favor as you make your way.

MAURICE M. WASSERMAN  
*Vice-principal*

Twenty five years ago, the first graduating class of John Bartram High School completed its tenure. The world stood on the brink of total disaster, for many of the major nations of the world were already locked in mortal combat. Deep in Nazi Germany scientists were experimenting with a new idea: Rockets. In the United States Allied scientists were engaged in nuclear research: atomic fission, atomic fusion. Just a scant twenty five years ago! What an exciting period of human history! These first graduates were very lucky to be a part of it.

And now you, the first class in the second quarter century of John Bartram High School, prepare for your commencement. What does the world have to offer you? Space travel? Medical research? Earth exploration? Modern living conveniences? And so much more! How lucky you are! How lucky to stand on the threshold of so much! What will the next twenty five years bring to you? Even more important, what will you bring to these coming years? Will your contribution, as individuals and as a group representative of the American Way of Life, be worthy of the promise of the future? Will you be able to return to your Alma Mater twenty five years hence and measure your achievements with pride?

Only you can decide. Only you can perform. Only you can contribute. Only time will tell. You leave the corridors of John Bartram High School with the light of knowledge. Keep the light bright. Keep it supercharged with the electricity born from achievement and progress. Walk forward with firmness, resolute with purpose and with a desire for good.

May God bless you all.

Face the camera, Mrs. Marple.

Of the many associations we've made at Bartram the most important have been those with the faculty. Our teachers have influenced our actions and our career goals and have tried to mold us into independent, rational individuals. Their task has been to equip us with the knowledge and skills we will need from January '65 on.

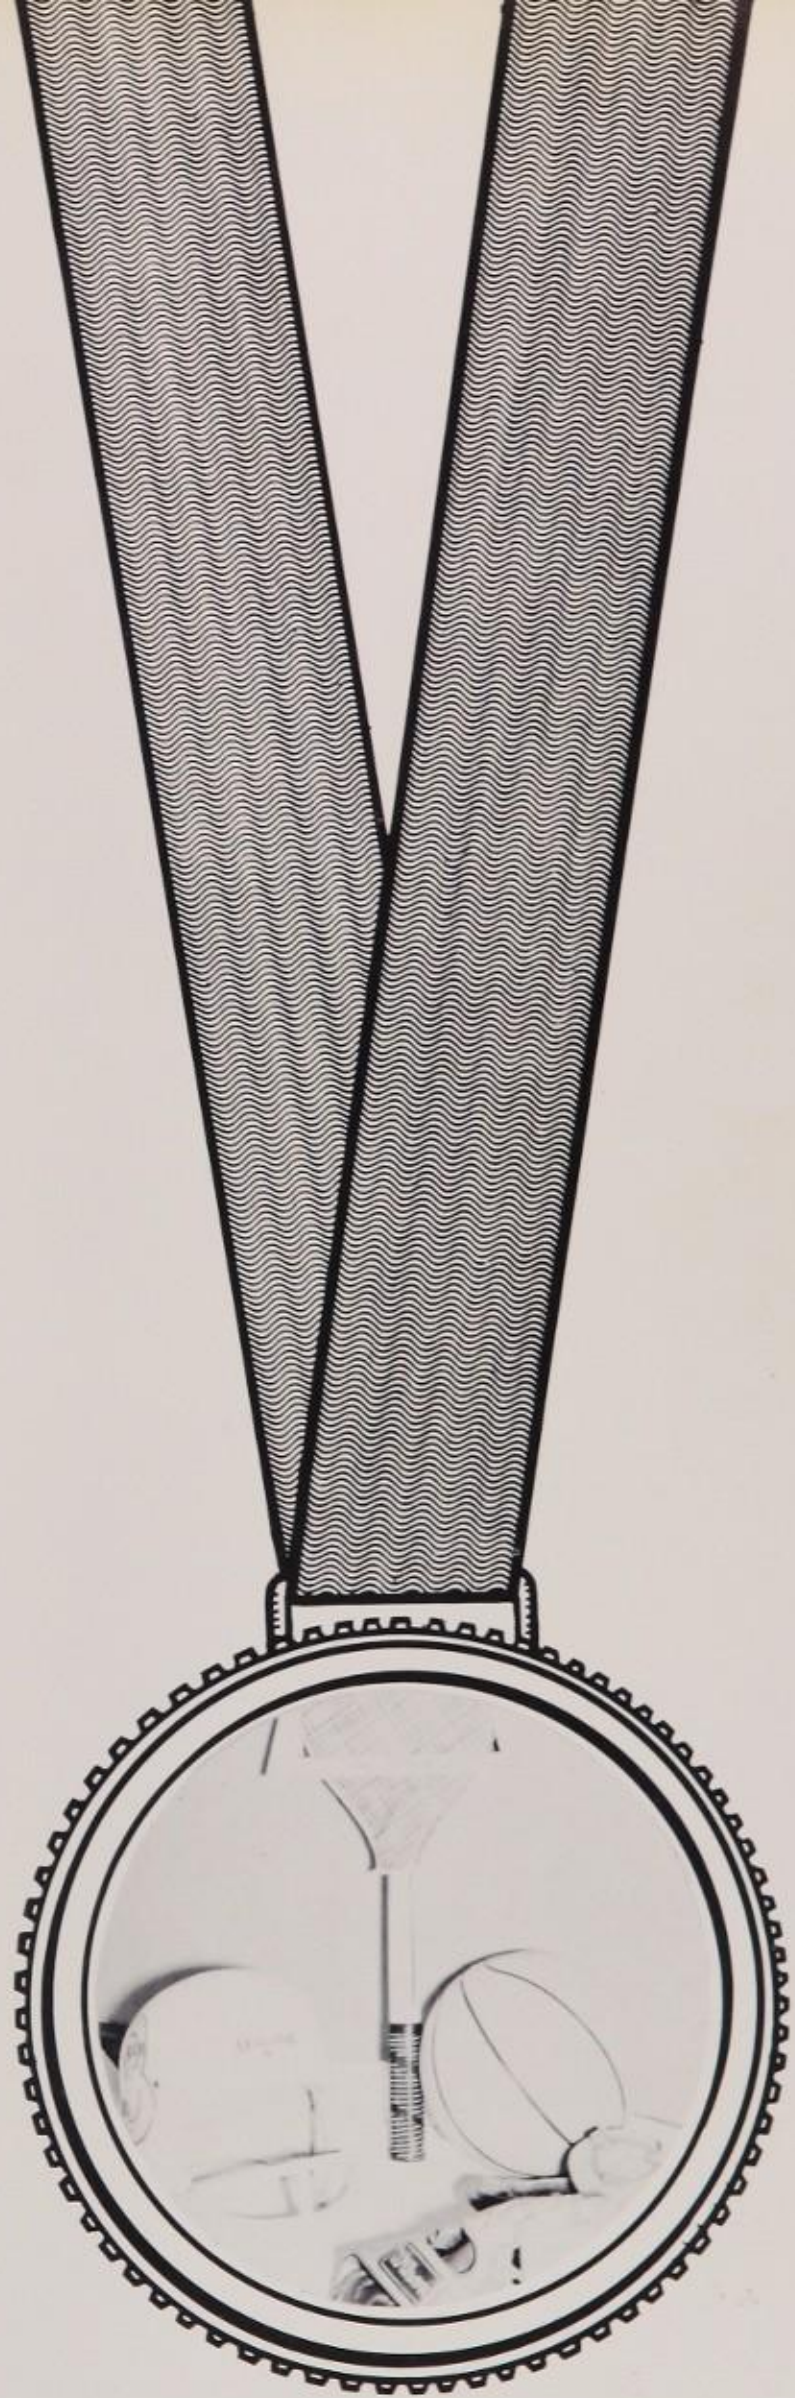

We have come to respect our teachers because of their personal qualities. Fast becoming adults, we are at a level of maturity not far behind that of the teachers, so we can communicate with them more freely and with more understanding. All of us know them as human beings with our welfare as their chief interest.

As Bartram's Gold Medal Class, we find the faculty equally deserving of this "Gold Medal" connotation.

# Sports

Mr. Charles Tomasco has molded a group of eager, rugged boys into a fine Football Team of which Bartram is proud. Senior members are Bill MacQueen, Clarence Thomas, Will Pettis, John Laurie, Harry Seraydarian, Larry Watson, George Wiley, John Nace, Al Lang, Charles Moran, Val Piacentino, Robert King, James Young, Robert Muller, Francis Cerino, Charles Davis, Frank Iacobucci, Lester Kearney, Joseph Tinney, Steve Hendricks, Charles Diem, Rich Newnam.

## Tigers On Our Team

Go, Braves, go!

Bartram on the move.

The excellent coaching of Mr. Edward Tatoian, along with the great efforts of the boys, led the Bartram Soccer Team to a winning season. Senior members are Jack Ruppert, Walter Bryson, and Paul Tjoumakaris.

Hitting this ball isn't as easy as it looks.

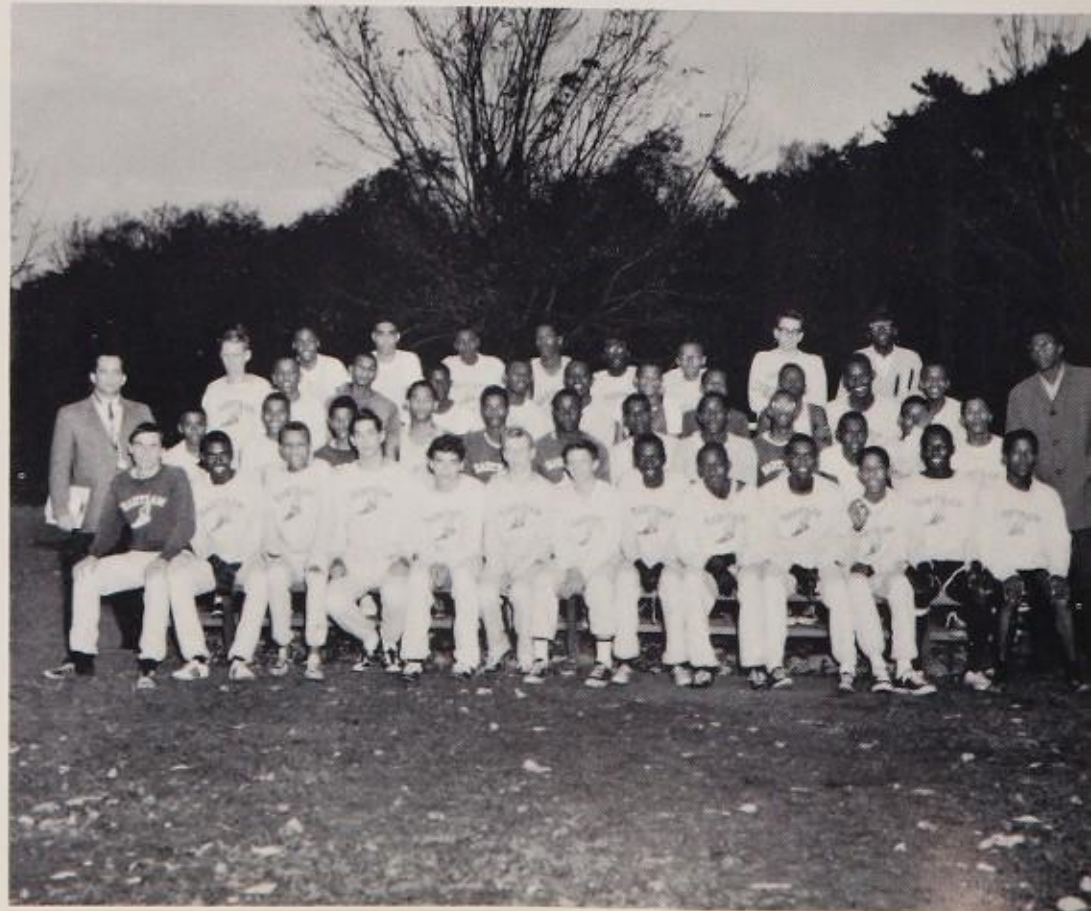

Sprinting through the streets surrounding our school can be seen Bartram's contributions to future Olympic games, the Cross Country Team.

## Sports Show School Spirit

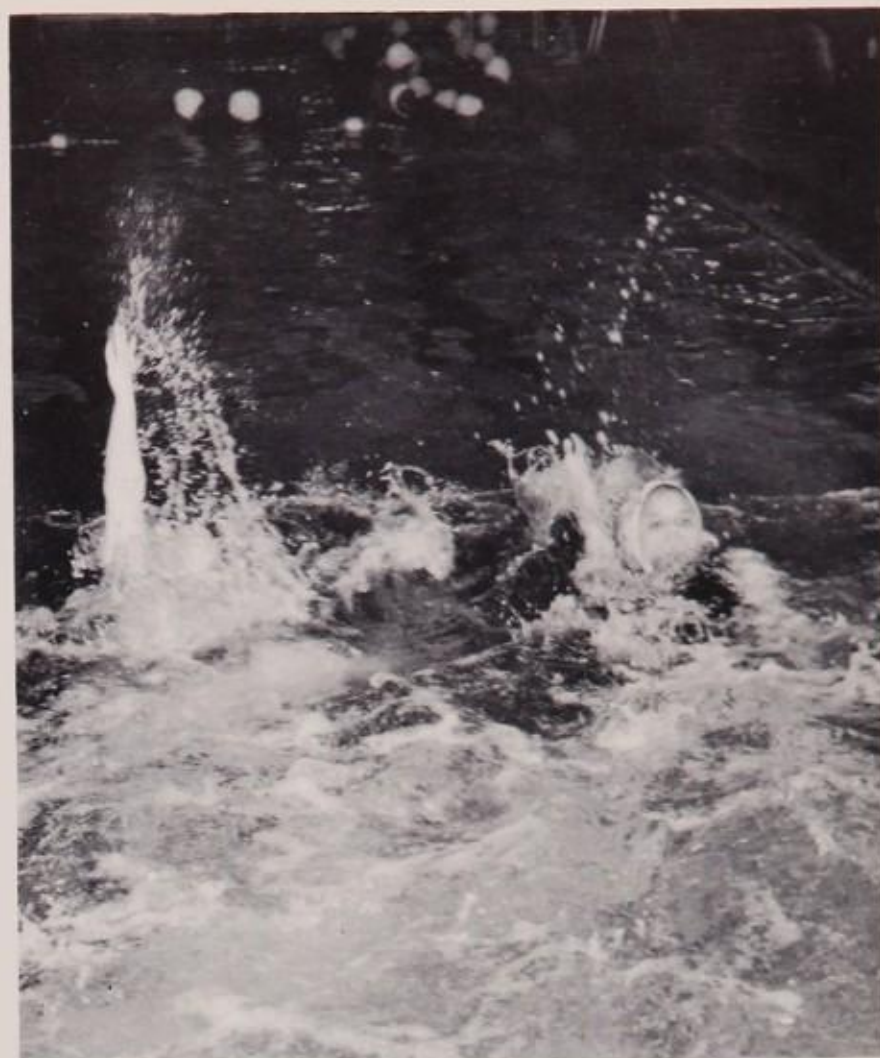

Hours of running improve the stamina of these boys.

The Swimming Team, coached by Mrs. Graboyes, works in an atmosphere of fun and competition, and should be commended for teamwork and sportsmanship.

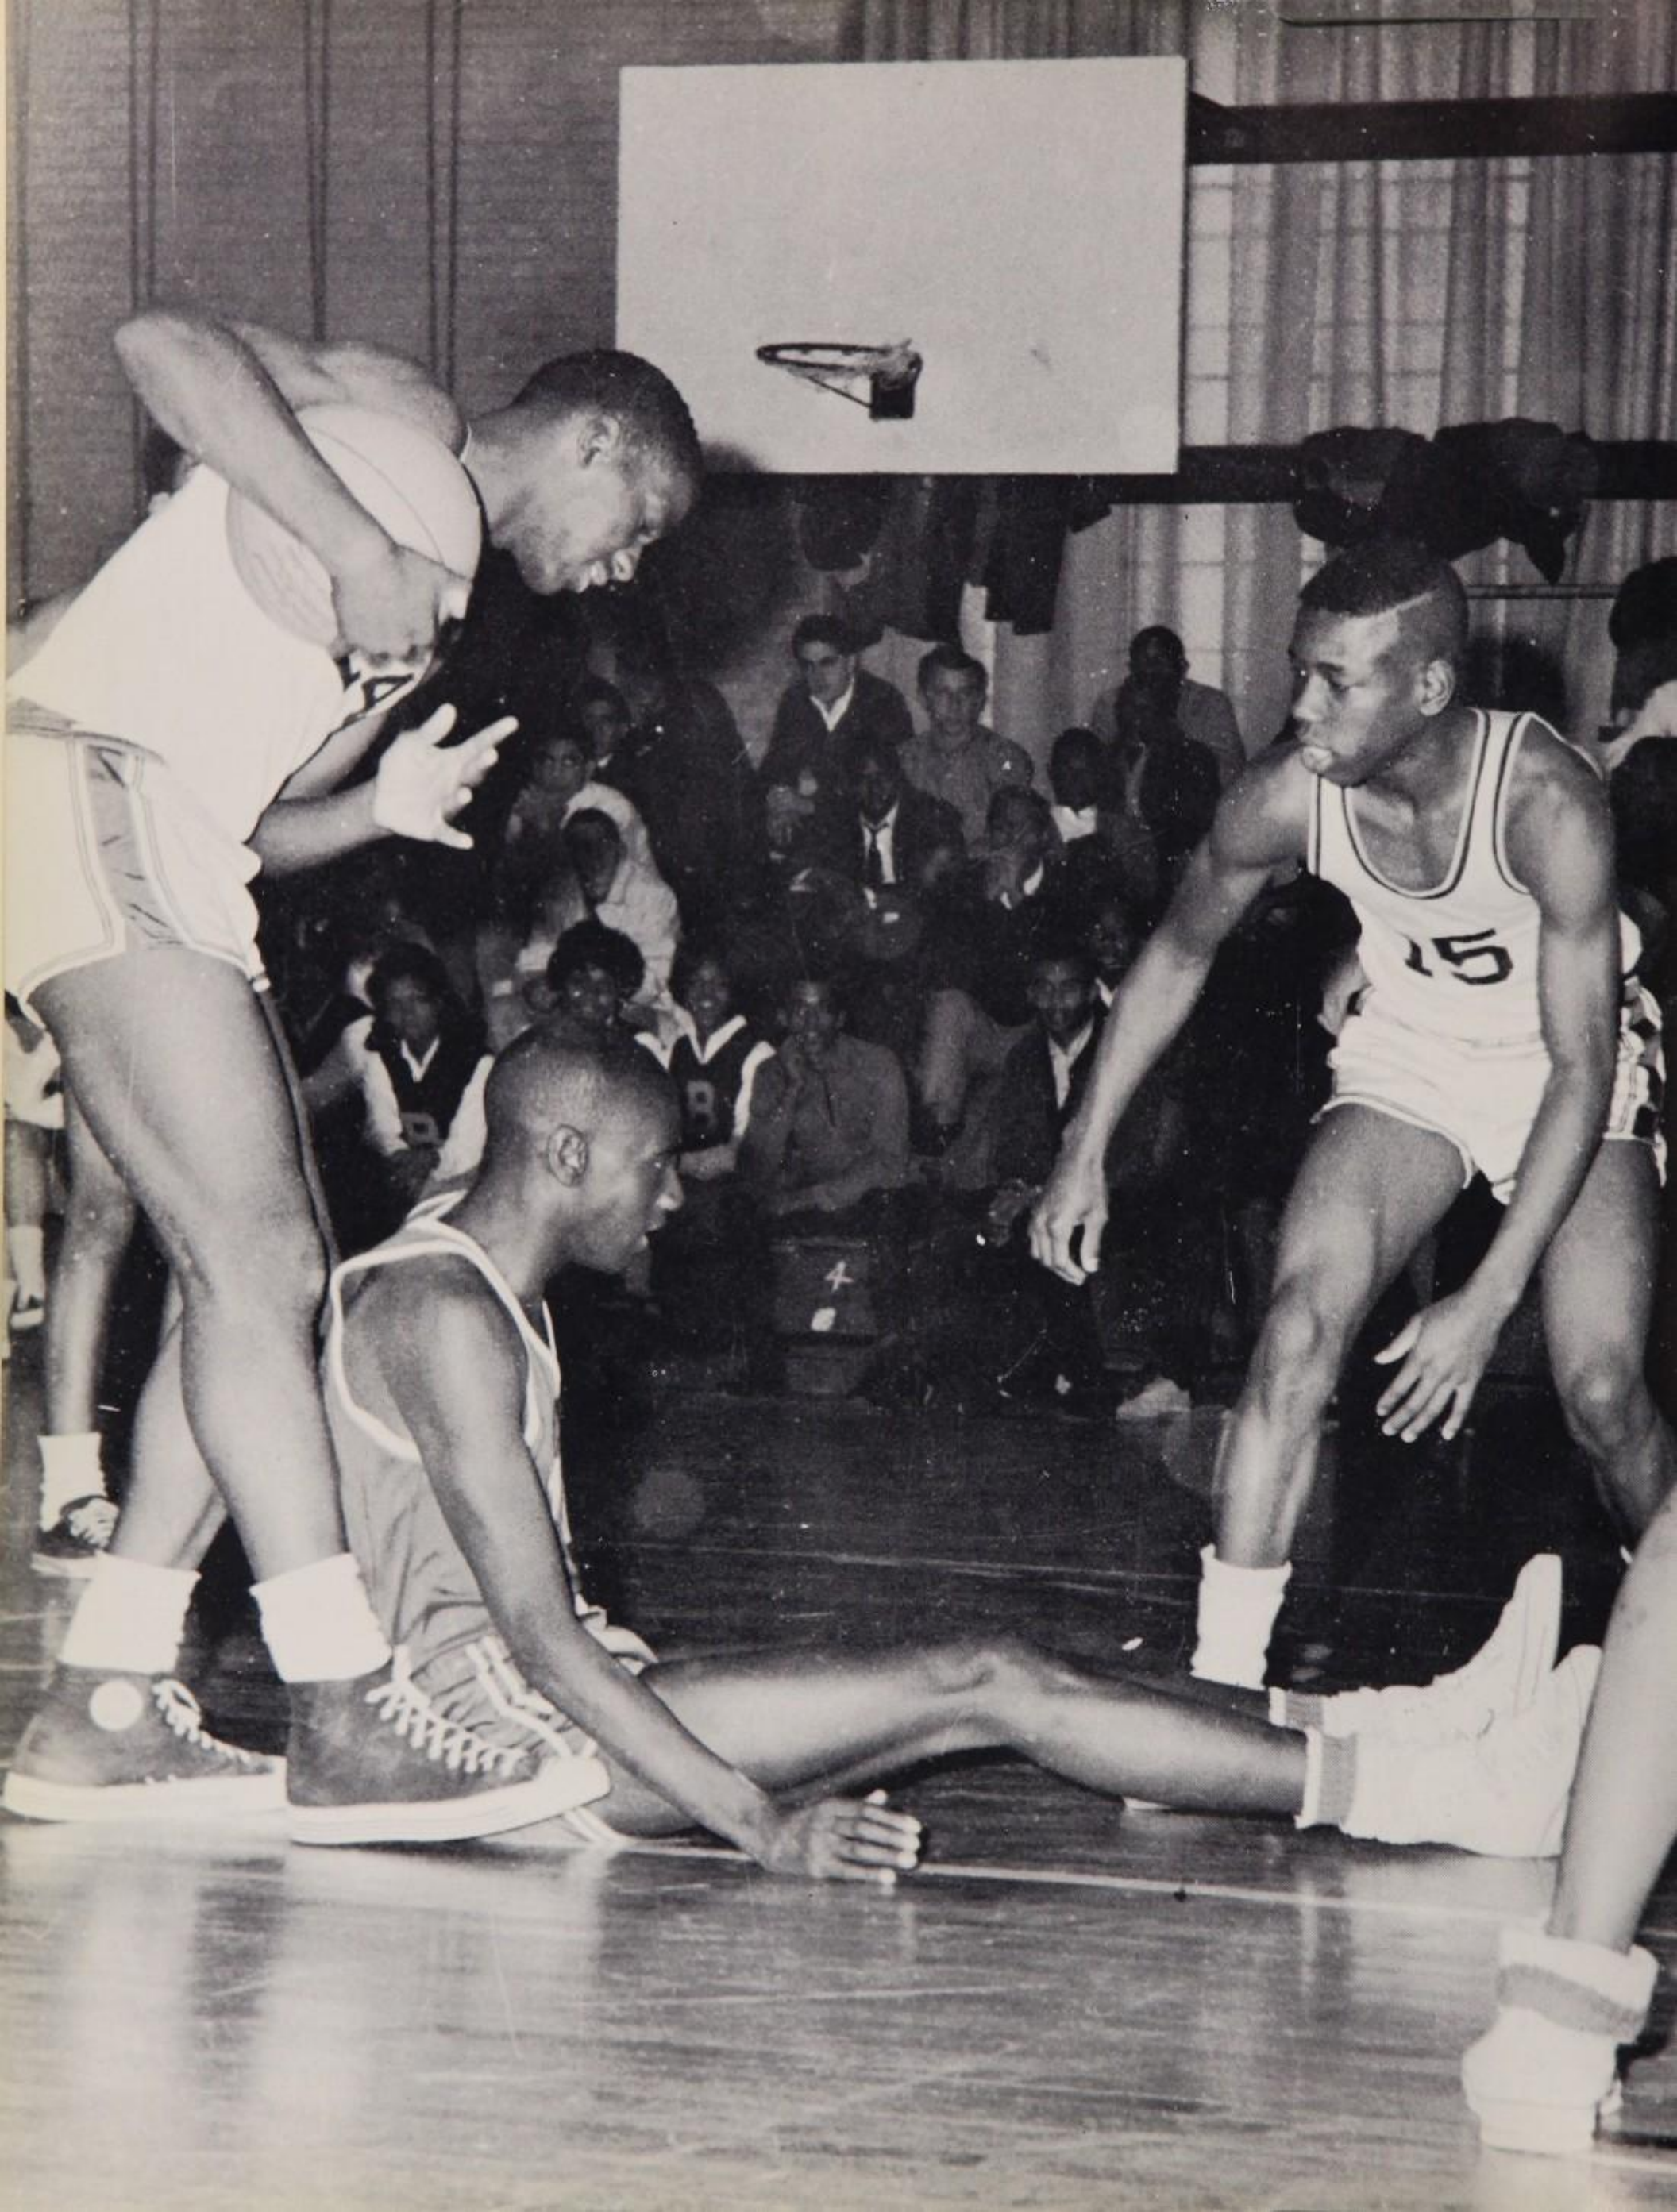

Swim hard! It could mean the trophy!

The Volleyball Team, coached by Mrs. Haines, has made a good showing for Bartram in every league game. 12B members are Madeline Snowden, Paula Glover (captain), Clancie Darby, Patricia Oglesby, Elaine Jones, and Blanche Bentley. Missing 12B member is Phyllis Davis.

Get those points! Bartram win or bust!

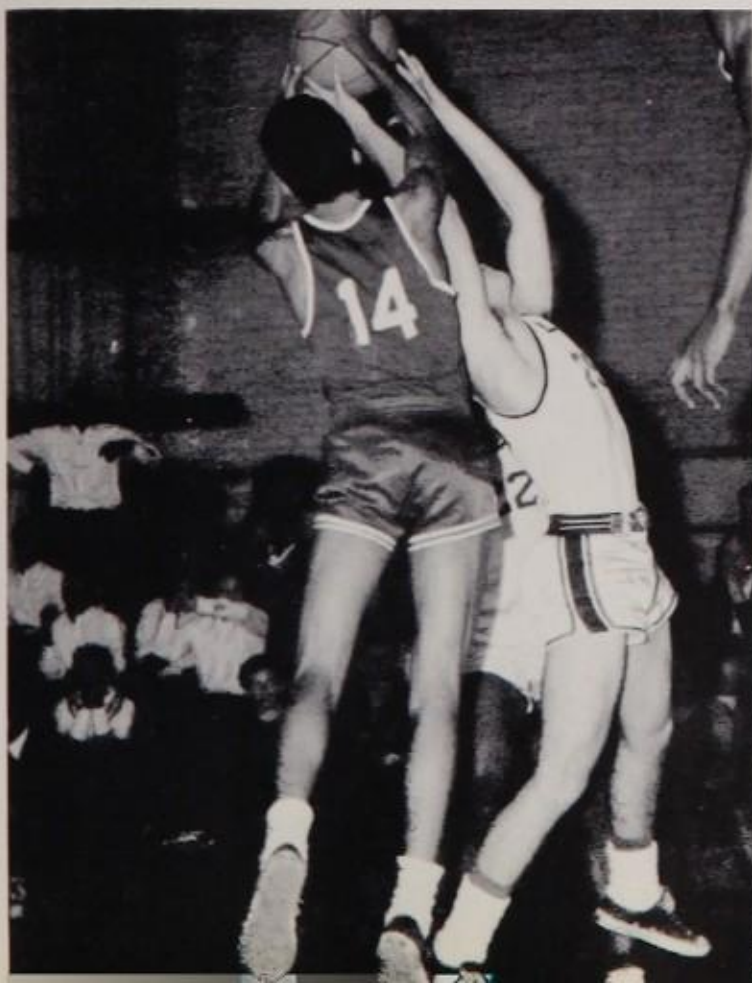

These boys, who practiced long and hard hours under Dr. Anthony Coma, almost brought to Bartram the Public League basketball title. Members are Al Alston (captain), Dick Tyler, Clarence Broskins, Bob Lewis, Bob Leonard, Randy Williams, Ken Emery, Spencer Colebs, Tom Dean, Ron Benson. Managers are Ike Barber, Larry Hackney, and Brian Doyle.

Bartram battles for the ball.

## Court Jesters

A Bartram player prepares to score during an exciting moment.

Practicing passes and basketball shots can only mean a victory for this team.

Mrs. Gwendolyn Hewlett became the new coach for the Girls' Basketball Team. This picture shows last year's team.

## Sports Of All Sorts

Win or lose, the team goes all out.

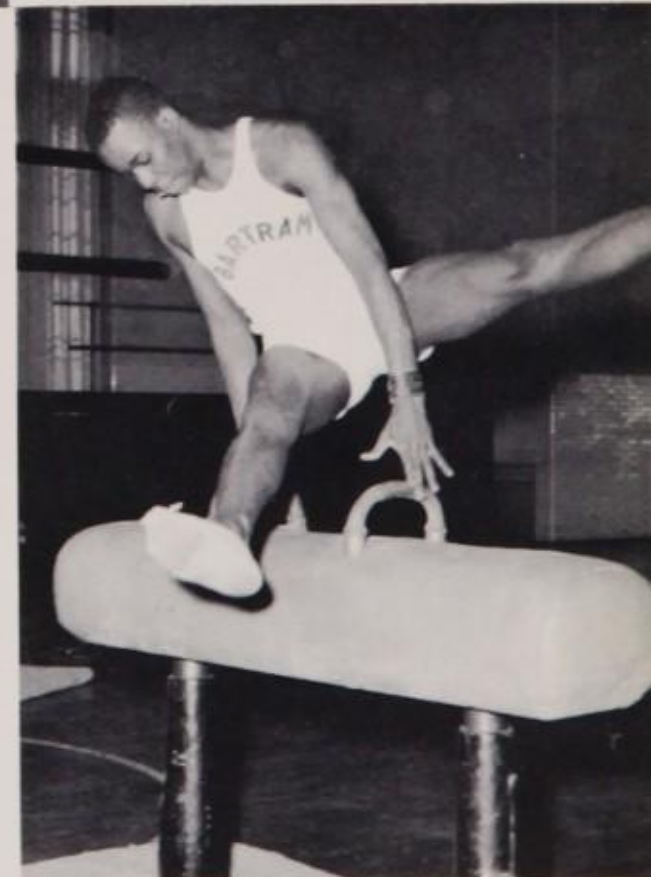

Girls in the Leaders' Club aid the Gym department. Mrs. Dorothy Wyld is sponsor.

Sponsored by coach John Gallante, the Gym Team's main objective is to stress the importance of physical fitness and precise co-ordination.

Senior leaders Carol Murphy and Carol Williams accept suggestions for exercises from their sponsor, Mrs. Dorothy Wyld, knowing it will keep them physically fit.

Long hours of practice bring perfection.

Richard Downs is the 12B member of our Bowling Team. This team is efficiently trained by Mr. Myron Cheiken. Its fine average makes us proud. The picture shows a previous year's team.

The boys' training shows up well in competition.

## Gold Medal

The prowess of the Girls' Bowling Team, especially with 12B members Jane Mongeluzi and Bernice Doyle, has made their instructor, Miss Agnes Stegmuller, proud of them.

Our Girls' Badminton Team tries its hardest to win at every meet. Members of team include seniors Madeline Snowden, Pat Oglesby, Barbara Manning, and Carol Mertz.

## Players

The Track Team, always one of the best in the city, placed high in the standings this year. The coach is Mr. John Gallante. The 12B members are Ike Kennon, Russell Nelson, and Frank Leybourne.

Both the Girls' and the Boys' Tennis Teams give exemplary performances. Mr. Edward Tatoian and Miss Agnes Stegmuller coach their respective teams. The only 12B member is Robert Brillman.

Under the capable leadership of Dr. Anthony Coma, our Baseball Team ranks high in standing every year. *Front Row:* Bob Leonard, Lou Burrell, Tony Bozzuto, John Nace, Joe Arron, Fred Taffee, Allen Diggs. *Second Row:* Coach Coma, Jerry Hatala, Richard Ward, Bill Colbert, Tom Dean, Jack Sharkey, Charlie Sacchetti, Joe Le Maitre, Bill Philps.

## A Team Effort

A Brave slides safely into first base after beating out a bunt.

Unsuccessful pickoff. Bartram team shows alertness and good coaching.

Bartram's name in sports is acknowledged throughout the city and feared in both leagues. In our three years we have seen the Braves dominate the leagues in baseball and basketball and post winning seasons in football, track, soccer, and cross country, to name just a few sports. Again, only this year, our first-place baseball and basketball teams lost the Public League Championship with a single loss in the playoffs.

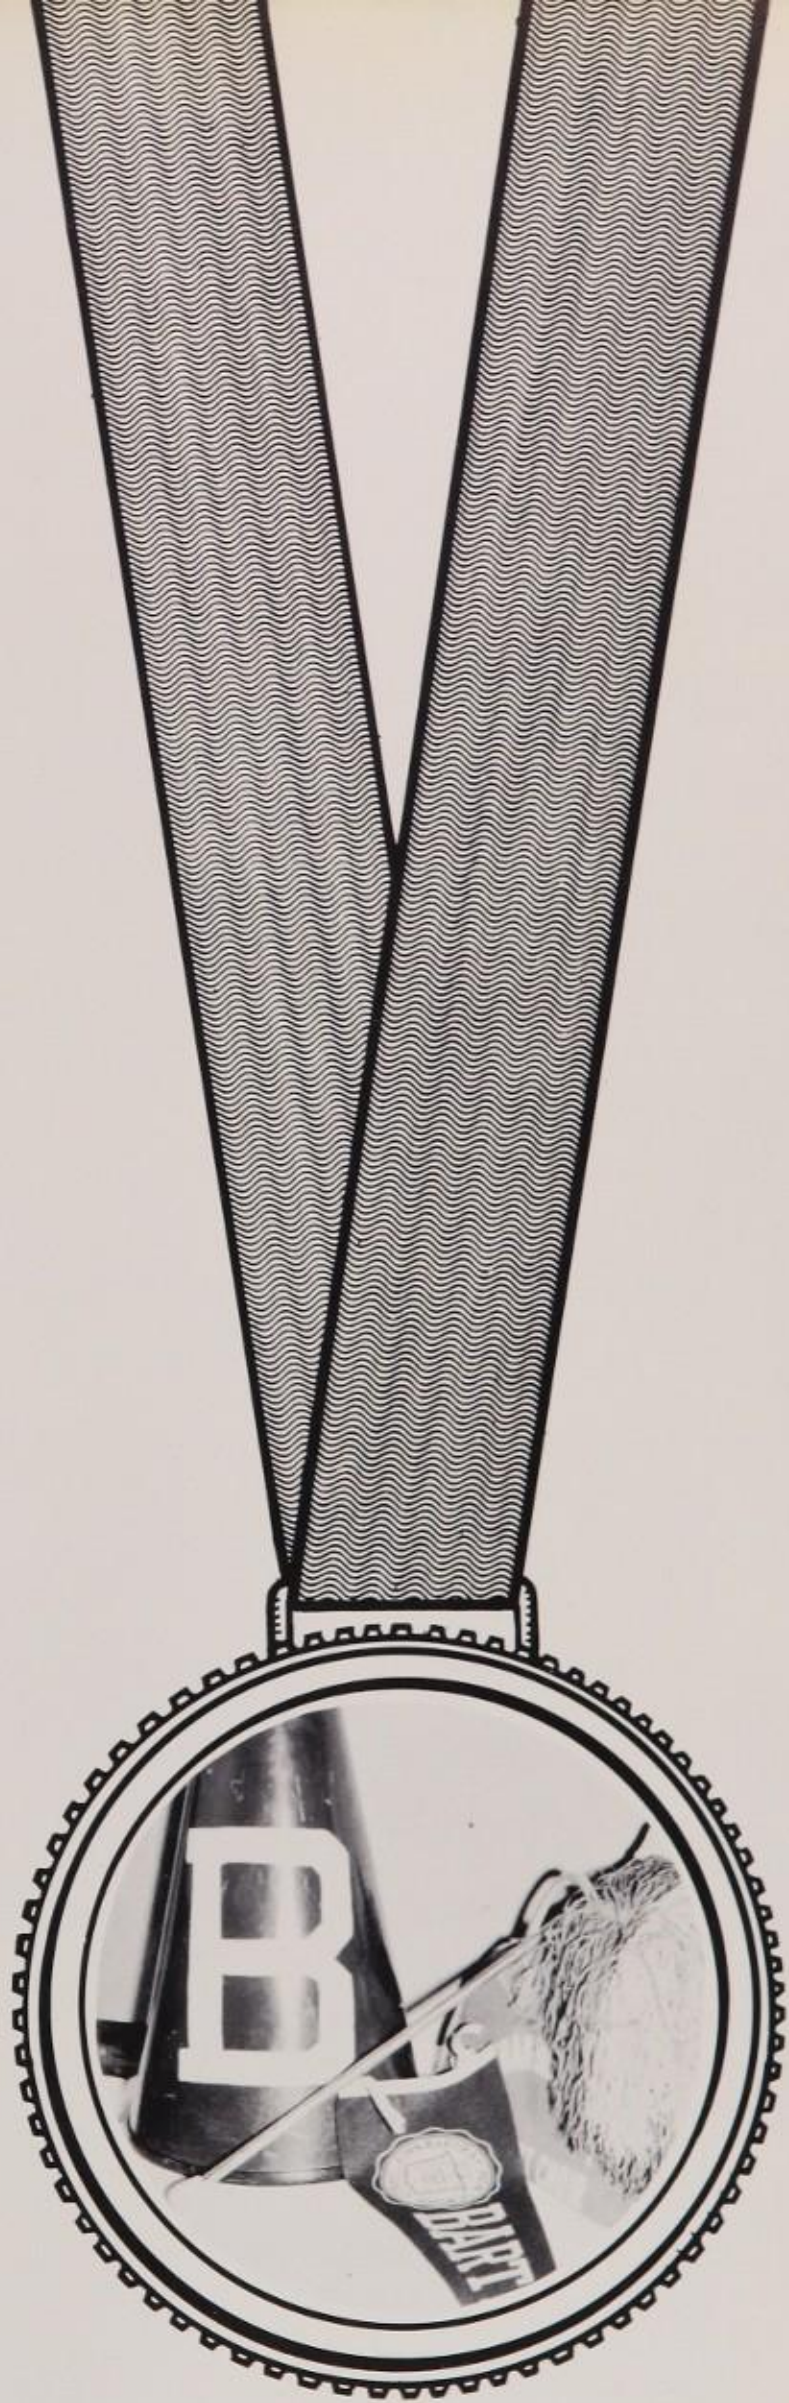

Athletics at Bartram has taken on importance, and the quality of competition we provide has made marked improvements in recent years.

The emphasis is not only on winning but also on spirit and sportsmanship. In both categories we reserve the right to congratulate our Gold Medal teams for their efforts.

# DUPREE'S CLASS SONG

FARE WELL TO THEE JOHN BARTHAM HIGH FROM THIS OUR CLASS OF GOLD THY MEMORIES WILL

CHERISHED BE FOR ALL OUR DAYS OF OLD. THE HAPPY MOMENTS HERE WE'VE SPENT THE

VICTORIES WE'VE WON ARE WELL EMBEDDED IN OUR MINDS WITH ALL WE'VE DONE.

MUSIC BY ELIZABETH FINNELL

WORDS BY CAROL MURPHY

Activities develop leadership, responsibility, and, above all, character. The mark of a promising student is his ability to devote time to extra-curricular activities and still maintain satisfactory grades, to serve the school and to participate.

Bartram's many activities are appealing to students of all interests. Although we have devoted time and energy to our clubs, service groups, or organizations, we feel our efforts were not in vain. Each of us has left with a certain feeling of satisfaction—the satisfaction of having participated and of having benefited—and, in many cases, of simply having had fun with classmates and other group members.

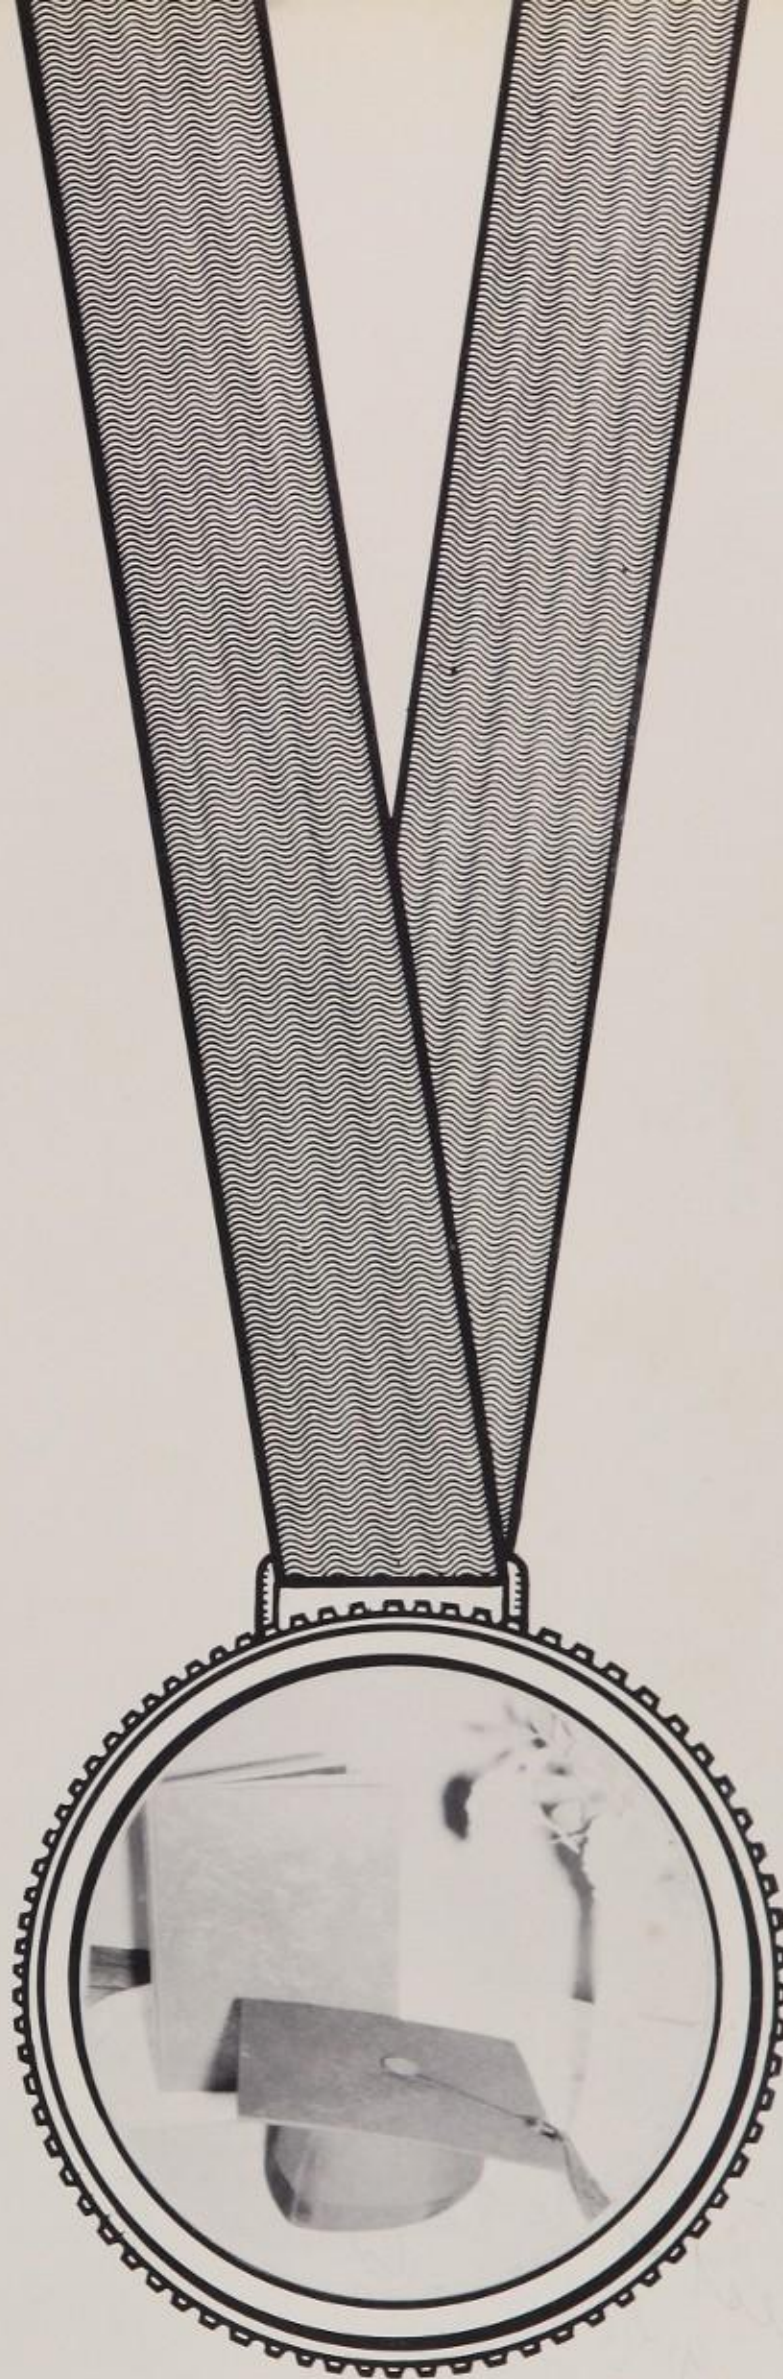

There were, of course, our senior activities and other social events on a less formal scale. There were the biology trips to New York, and individual class trips. They all held pleasures for us to be remembered for a long while.

They were all "Golden" activities.

# Graduates

Mr. Tumolo has had many worries as the sponsor of our class. Our thanks and appreciation go to him for letting us add more gray hairs to his gray streak.

Gold, the name of our class, is a valuable metal that nations have fought, traded, and searched for since it was first discovered. A nation owning much gold is considered wealthy and fortunate. The other nations of the world look to that wealthy nation for financial and technical assistance so that they, too, can become wealthy and thereby occupy a place of respect among the nations of the world. This gold is working; it is being used to increase the influence of the nation or nations owning it. There is much gold at the bottom of the sea, buried in uncharted caves, with armies of adventurers searching relentlessly for it. Occasionally one reads in the newspaper that a cache of hidden gold has been discovered or a sunken Spanish galleon has been found at the bottom of the sea off the coast of Florida or in the Gulf of Mexico, and there is much rejoicing and gratitude among the men who feel so fortunate in having been able to find the hidden treasure. This gold is now put back into use and its value again begins to wield its influence for its owners.

Your education is like that gold. A good education will serve you by allowing you to be selected for a good position in life, if, by your actions, responsibility, and diligence, you show that you merit it. Merely announcing that you have an education is not enough because, as you know, you cannot buy anything at a store if all you are able to show at the time of sale is a promise to pay. You must either pay the price on the spot or be able to show that you have the ability to pay.

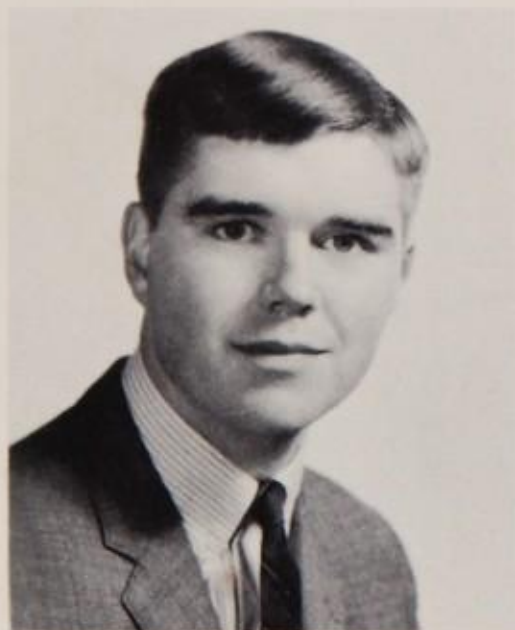

You have the education just as many nations have the gold, and many of you can put your education to use immediately because you are now ready to give proof of ownership. Some of you must search for your personal gold in an uncharted cave or at the bottom of the sea before you will be able to put it to use because you are not ready to show that you have possession of it.

It is my sincere hope that all of you will show by your success and deportment in life that you possess much of this gold that we call education.

God bless you.

VINCENT A. TUMOLO

## Award Winning Leaders

Allen Collins is respected not only as the president of our class, but also as an experienced member of our Student Government.

The road of education is all too short. Our last twelve years have gone quickly, and now the time has come for us to say good-bye to Bartram and our many friends. However, we are not leaving with an empty feeling. We have many memories on which to reflect—the good times, the teachers, the sports, the hard work, the graduation. All these are now part of the past, but they will remain with us for the rest of our lives.

We must now look to the future. The past twelve years have been preparing us for a new world. This new world is now upon us, and we must depend on our education to help us become successful in it. We must always be ambitious, and we must always keep reaching for something that exceeds our grasp. The person who does these things, with hard work, will succeed. In this way only can we take advantage of the opportunities which await us. They are many, and we are now ready for them. We must persevere and not turn our backs on them. I would like to thank this class, for truly it has been a "Class of Gold." Remember the great events of our senior year—the Class Trip, the Spring Formal, the Prom, the Dinner Dance. Your unselfish support has made my job as class president one which I will never forget.

I wish all of you the very best of luck in the future. Look back on your memories; you have had many valuable experiences from which much knowledge could be gained. Take advantage of future experiences, but never forget the past.

ALLEN COLLINS

## **A Golden Future Ahead**

So it is that the fiftieth graduating class leaves John Bartram High School—only that the fifty-first, fifty-second, and so on, may do likewise. Bartram's milestone is ours also. Inevitably, our Alma Mater will continue to make its mark and reach even greater milestones simply because, as a school, it has and will function systematically.

What achievements *we* make depend now on our ambitions and our initiative. Thus, it is we alone, guided by our own system of values, who will determine our success, or failure, as we look back in future years.

May the Blessed Bird of Paradise  
never close  
your face!  
J.H.
